

POOL MAXX GLASS FILTER MEDIA

For Durable Swimming Pool Filtration

Pool Maxx Glass Filter Media is made up of recycled virgin glass beads. It replaces conventional sand media in your pool filter, enhancing performance and durability like never before. It works well in all pools, including chlorine, salt water, or natural water, by removing pollutants and lasts up to 10 years. **Pool Maxx Glass Filter Media** offers outstanding ROI, longevity, and savings in maintenance costs.

WHY USE GLASS FILTER MEDIA?

ADVANTAGES :

- ✓ Glass will filter as small as 5 microns.
- ✓ Durable for the filter's lifecycle.
- ✓ Gives you crystal-clear water.
- ✓ Lowers the need for chlorine.

Reduces Bacteria

Saves Cost
